

CURRICULUM VITAE

PERSONAL INFORMATION

Name: VO DUY LONG, Male
Date of birth: 26 July 1977
Nationality: Vietnamese
Marital status: Married

MEDICAL DEGREE

1995 - 2001 Medical doctor, University of Medicine and Pharmacy of Ho Chi Minh City
2001 - 2005 Resident physician, University of Medicine and Pharmacy of Ho Chi Minh City
2007 – 2008 Master of General Surgery, University of Medicine and Pharmacy of Ho Chi Minh City
2008 - 2010 Master of Laparoscopy, University of Catania, Italia
2011 - 2014 PhD, University of Medicine and Pharmacy of Ho Chi Minh City

ACADEMIC APPOINTMENTS

2005 - 2010

Gastro-intestinal surgeon, Department of General Surgery, University Medical Center
Lecturer of Surgery Department, University of Medicine & Pharmacy at HCM City

2010 – now:

Head of Upper GI Surgery Division, Deputy Head of GI surgical Department, University Medical Center, Ho Chi Minh city, Vietnam
Lecturer of GI surgical Department, University of Medicine & Pharmacy at HCM City

PROFESSIONAL SOCIETY/ ORGANISATION

Member of Endoscopic and Laparoscopic Surgeons of Asia (ELSA)

Member of Society of American Gastrointestinal and Endoscopic Surgeons (SAGES)

Member of Vietnamese Surgical Society

Member of The Viet Nam Association of Endolaparoscopic Surgeons

Member of Ho Chi Minh City Surgical Society

Member of Ho Chi Minh City Association of Pelvi Perineology

Board member of Asia Pacific Endo-Lap Surgery Group (APEL)

Present President of Upper Gastro-Intestinal Surgical Society of ASEAN (USAN)

Present President of Asia Pacific Gastric Cancer Congress (APGCC)

EXPERIENCE OF GI SURGERY

Performing about 700 cases of open gastrectomy and 1000 cases of laparoscopic subtotal gastrectomy and 200 cases of laparoscopic total gastrectomy for gastric cancer

Performing about 300 cases of laparoscopic colectomy and anterior resection for colo-rectal cancer.

Performing about 200 cases of thoraco-laparoscopic esophagectomy for esophageal cancer

Having many presentations at the meetings of Endoscopic and Laparoscopic Surgeons of Asia, Society of American Gastrointestinal and Endoscopic Surgeons, Asia Pacific Endo-Lap Surgery Group...

INTERNATIONAL PRESENTATIONS

2010

ELSA 2010 at Ha Noi, Vietnam

1. The feasibility and safety of laparoscopic distal pancreatectomy
2. Laparoscopic Wedge resection of gastric submucosal tumors

2011

ELSA 2011 at Singapore

1. The role of laparoscopic gastrectomy with lymphadenectomy D2 for gastric cancer
2. Laparoscopic anterior resection for rectal cancer

2012

SAGES 2012 at San Diego, California, USA

1. Comparison of open and laparoscopic gastrectomy with lymph node dissection for gastric cancer

4th Asia Pacific Gastroesophageal Cancer Congress at Singapore

1. Laparoscopic distal gastrectomy with lymphadenectomy: how I do it?

2013

SAGES 2012 at Baltimore, Maryland, USA

1. Laparoscopic distal pancreatectomy for pancreatic tumor

2014

ELSA 2014 at Bali, Indonesia

1. Laparoscopic gastrectomy with extended lymph node resection for gastric cancer
2. Laparoscopic wedge resection of gastric submucosal tumors
3. Thoracoscopic resection for esophageal cancer: a retrospective review of 34 cases

2016

APELS at Bangkok, Thailand

1. Laparoscopic gastrectomy and lymphadenectomy D2 for gastric cancer

ELSA 2016 at Shanghai, China

1. Laparoscopic total gastrectomy with extended lymph node resection for gastric cancer

APELS at Guangzhou, China

1. Laparoscopic distal radical gastrectomy for gastric cancer

2017

APELS at Guangzhou, China

1. Thoraco-laparoscopic esophagectomy for esophageal cancer
2. Laparoscopic gastrectomy and lymphadenectomy for gastric cancer

SAGES at Houston, Texas, USA

1. Results of thoraco-laparoscopic esophagectomy for esophageal cancer - experience of 70 cases at university medical center, Hochiminh city Vietnam.
2. Laparoscopic gastrectomy and d2 lymphadenectomy for gastric cancer a single center experience.

ELSA 2017 at Cebu, Philippines

1. Laparoscopic total gastrectomy with splenic hilar lymph node dissection and overlap method of intracorporeal esophagojejunostomy
2. Comparison of overlap and end-to-end functional methods for intracorporeal esophagojejunostomy using endo linear stapler after totally laparoscopic total gastrectomy
3. Laparoscopic gastrectomy with d2 lymphadenectomy for advanced gastric cancer: experiences from a university medical center

2018

90th Annual Meeting of the Japanese Gastric Cancer Association at Yokohama, Japan

1. Laparoscopic gastrectomy and d2 lymphadenectomy for gastric cancer: a single center experience.
2. Laparoscopic subtotal gastrectomy for lower third of gastric cancer with billroth i reconstruction
3. Totally laparoscopic total gastrectomy for upper third of gastric cancer

SAGES at Seattle, Washington, USA

1. Comparison of open and laparoscopic subtotal gastrectomy with lymph node dissection for gastric cancer.

7th Malaysia Upper Gastrointestinal Surgical Society Conference 2018 at Kuala Lumpur

1. Experience of laparoscopic gastrectomy and D2 lymphadenectomy for gastric cancer at University Medical Center, Hochiminh city, Vietnam
2. Tips and tricks of laparoscopic esophagectomy for esophageal cancer.

7th Asia-Pacific Gastro-esophageal Cancer Congress at Guangzhou, China

1. Laparoscopic gastrectomy and D2 lymphadenectomy for gastric cancer: experience of one center at University Medical Center, Hochiminh city, Vietnam

2019

Korea International Gastric Cancer Week (KINGCA Week 2019) at Incheon, Korea

1. Laparoscopic Gastrectomy And D2 Lymphadenectomy For Gastric Cancer: A Single Center Experience At University Medical Center, Hochiminh City, Vietnam

13th International Gastric Cancer Congress (IGCC 2019) at Prague, Czech Republic

1. Totally Laparoscopic Total Gastrectomy For The Upper Third Of Gastric Cancer
2. Long Term Results of Laparoscopic Gastrectomy For Gastric Cancer.

1st Upper Gastro-Intestinal Surgical Society of ASEAN (USAN 2019) at Hochiminh city, VN

1. Laparoscopic gastrectomy and lymph node dissection for advanced gastric cancer.
2. Laparoscopic function preserving gastrectomy for gastric cancer.
3. Three fields or two field lymph node dissection for esophageal cancer?

29th Korean Society of Surgical Metabolism and Nutrition (KSSMN 2019) at Seoul, Korea

1. Experience of bariatric surgery at university medical center, hochiminh city, vietnam

8th Malaysia Upper Gastrointestinal Surgical Society Conference 2019 at Kuala Lumpur

1. Laparoscopic proximal gastrectomy: how to perform reconstruction.
2. Experience of bariatric surgery at university medical center, hochiminh city, vietnam

ELSA 2019 at Bangkok, Thailand

1. Laparoscopic function preserving gastrectomy: the present and future.
2. 3 field lymphadenectomy for treatment of esophageal cancer.

Seoul International Gastric Cancer Forum 2019

1. Laparoscopic gastrectomy for advanced gastric cancer: is it acceptable technique and oncologic outcomes ?

2020

8th Asia-Pacific Gastro-esophageal Cancer Congress at Chennai, India

1. Laparoscopic limited gastrectomy for gastric cancer: how I do it ?
2. Conduit option for esophagectomy for esophageal cancer

Seoul International Gastric Cancer Forum 2020

1. Laparoscopic splenic hilar lymphadenectomy for advanced gastric cancer

2022

14th International Gastric Cancer Congress (IGCC 2022) at Houston, USA

2. LAPAROSCOPIC PROXIMAL GASTRECTOMY WITH DOUBLE-FLAP RECONSTRUCTION FOR TUMOR IN 1/3 UPPER OF THE STOMCH
3. Laparoscopic splenic hilar lymphadenectomy for advanced gastric cancer

PUBLICATION

1. An Integrated System and Framework for Development of Medical Applications and Products Based on Medical Imaging Data”. 6th International Conference on the Development of Biomedical Engineering in Vietnam (BME6). Springer Nature Singapore Pte Ltd. 2018, BME 2017. IFMBE Proceedings, vol 63, P: 363 – 366. © https://doi.org/10.1007/978-981-10-4361-1_61.
2. Cost-Effective Solutions and Tools for Medical Image Processing and Design of Personalised Cranioplasty Implants”. 6th International Conference on the Development of Biomedical Engineering in Vietnam (BME6), BME 2017. Springer Nature Singapore Pte Ltd. 2018. IFMBE Proceedings, vol 63, P: 397-402. https://doi.org/10.1007/978-981-10-4361-1_67.

3. Innovative Development of the Inspired Sinewave Device to Measure Lung Functions and Inhomogeneity for Diagnosis and Evaluations of Early Lung Diseases”. 6th International Conference on the Development of Biomedical Engineering in Vietnam (BME6), BME 2017. Springer Nature Singapore Pte Ltd. 2018. BME 2017. IFMBE Proceedings, vol 63, p: 649-654. https://doi.org/10.1007/978-981-10-4361-1_111.
4. Clinical Outcomes of Laparoscopic Proximal Gastrectomy With Double-Flap Reconstruction for Tumors in the Upper Third of the Stomach. *Surg Laparosc Endosc Percutan Tech* 2022; 32:409-414.
5. Long-Term Outcomes of Open Versus Laparoscopic Distal Gastrectomy for T4a Gastric Cancer: A Propensity Score-Matched Cohort Study. *Ann Surg Oncol*. 2022 Dec 5. doi: 10.1245/s10434-022-12897-z.
6. Surgical outcomes and quality of life assessment of esophagectomy for cancer with colon conduit via retrosternal route. *Esophagus*. 2023 Jan 6. doi: 10.1007/s10388-023-00984-3.

AWARD

Award of Society of American Gastrointestinal and Endoscopic Surgeons (SAGES) in 2012 with title “Comparison Of Laparoscopic And Open Gastrectomy With Lymph Node Dissection For Gastric Cancer”.
